

**Sabaragamuwa**  
University of Sri Lanka

**Faculty of Computing**  
**Department of Computing & Information Systems**

**ACTIVITY 01**  
**IS5106 – UI/UX Practicum**

Name : E.N. Vishaka Lakmali  
Reg. no : 20APC5043  
Academic Year : 2020/2021  
Degree program : Information Systems  
Due Date : 20/06/2024

Good UI design

### **Virtual Learning System of Sabaragamuwa University**

- Useful: we can see what are the upcoming activity need to do (assignment need to submit with due date) as well as we are receiving notification when we submit assignment.
- Usable: easily we can edit our submission without more complex procedures lectures can easily assign marks for the Quizzes in real time.
- Desirable: easy to download and check the lecture material and others according to course category easy navigation.

Unsatisfactory design

### **New Outlook of Gmail (Microsoft)**

- Useful: Need more understanding to deal with the interface because of deep layout as well as the lots of new features.
- Usable: when we log it take us from old one to new look it takes too much time.
- Desirable: complex to navigate showing the mail again as a popup is disturbing thing and it disrupt the workflow.
